Dickens' Works
In their Most Complete Form.
The Publication of Master Humphrey's Clock, for first time in America, by Hurd & Houghton, makes their editions the most complete ones in the market.
MASTER HUMPHREY'S CLOCK
consists of the chapters originally connected with the "Old Curiosity Shop" and "Barnaby Rudge," and is now reprinted for the first time in America, nor can it be obtained in any of the current English editions. In those chapters, Mr. Pickwick reappears, as do also Mr. Weller, his son, the immortal Sam, and a third Weller, son of Sam, an epitome of his grandfather. In this volume also appears a
General Index of Characters and their Appearances,
made expressly for Hurd & Houghton's editions, more than eighty pages long, and enabling one at once to find, as in a directory, the name and place of every one of Mr. Dicken's inventions. To this is added an
An Index of Fictitious Places, Familiar Sayings, etc.,
rendering Hurd & Houghton's editions thoroughly furnished, and the only complete ones in the market. The Indexes were compiled with great care by Mr. W. A. Wheeler, the well known editor of Webster's Dictionary.
I. **Globe Edition**, in 14 vols., 12mo., containing all the illustrations by Darley and Gilbert. $1.50 a volume.
II. **Riverside Edition**, in 27 vols., crown 8vo, containing all the illustrations by Darley and Gilbert, and those by the celebrated English artists, Cruikshanks, Phiz, etc., from new steel plates. $2.50 a volume.
III. **Household Edition**, in 54 vols., 16mo, containing all the illustrations by Darley and Gilbert. $1.25 a volume.
IV. **Large Paper Edition**, in 54 vols., 8vo, large paper, with all the illustrations in the Riverside edition, *proof impressions.* Sold to Subscribers at $5.00 a volume.
N. B. The Mystery of Edwin Drood will be added to each set, immediately on its completion.
Any set or single volume sent on receipt of advertised price, by the publishers,

MISCELLANEOUS.

7 Per Cent. Gold
First Mortgage Bonds,
(FREE OF U. S. TAX.)
OF THE
Burlington, Cedar Rapids & Minnesota R. R. Co.
A limited quantity for sale
AT 90 AND INTEREST.
Interest payable May and November.
J. EDGAR THOMPSON, CHARLES L. FROST, } Trustees.
These bonds have 50 years to run, are convertible at the option of the holder into the stock of the company at par, and the payment of the principal is provided for by a sinking fund.
The greater part of the road is already completed, and shows large earnings, and the balance of the work is rapidly progressing.
We unhesitatingly recommend these bonds as the safest and best investment in the market.
U. S. Five-twenties, at present prices, only return five per cent. interest, while these pay eight and one-quarter per cent. in Gold; and we regard the security equally good.
The Company reserve the right without notice to advance the price.

Proposals for Rations and Ship Chandlery.
COLLECTOR'S OFFICE, DISTRICT OF PORTLAND AND FALMOUTH, PORTLAND, June 3, 1870.
SEALED PROPOSALS will be received at this office until Saturday, at 12 o'clock M., the 25th day of June instant, for the supply of Rations to the petty officers and seamen of the U. S. Revenue Steamer "Mahoning" or any other Revenue Cutter or Cutters that may be stationed at this port, for the term of one year from the first day of July next.
The ration for the Revenue Service is the same as that allowed to the United States Navy, omitting the liquor; and consists of the following articles, viz: Beef, Pork, Flour, Beans, Potatoes, Vinegar, Pickles or Cranberries, Biscuit, Sugar, Tea, Cocoa, Butter, Cheese, Molasses, Vinegar.
The rations to be of good wholesome quality, to be approved by the Captain, and the different articles comprising the rations to be delivered on board the vessel in good and sufficient casks and vessels, to be provided by the contractor, and the contents thereof to be distinctly marked on each. It is to be understood that the contractor will be bound to furnish, upon reasonable notice, as often as may be required by the Captain of the vessel, with the approbation of the Collector (not exceeding upon an average one day in each week) such fresh meat and fresh vegetables as may be equivalent to the corresponding parts of the rations allowed in the naval service. Table of rations may be seen at the Custom House.
Sealed Proposals will also be received at this office until Tuesday, at 12 o'clock M., the 21st day of June instant, for Ship Chandlery for the use of the above named vessel or vessels for said term of one year from July 1st, 1870.
List of articles to be bid for, and the specifications necessary to a full understanding of the proposals advertised for, may be seen at this office.
Jun4td I. WASHBURN, Jr., Collector.

Non-Resident Taxes.
IN the town of Freeport, in the County of Cumberland, for the year 1869.
The following list of Taxes on real estate of non-resident owners in the town of Freeport for the year 1869, in bills committed to W. L. Jordan, Collector of said town, on the 22d day of May, 1869, has been returned to me as remaining unpaid, and now remains unpaid; and notice is hereby given, that if the said taxes, interest and charges are not paid into the Treasury of the said town within eighteen months from the date of the commitment of said bills, so much of the real estate taxed as will be sufficient to pay the amount due therefor, including interest and charges, will, without further notice, be sold at *public auction*, at my Office, in said Town, on Monday, January 2nd, at 2 o'clock P. M.

New Method of Washing Clothes without the labor of rubbing.
O. F. STEDMANS Patent Wash Boiler now on exhibition at A. N. Noyes & Son's, No 12 Exchange st.
The Boiler operates upon purely philosophical principles. It is self-acting, and dispenses entirely with the rubbing and wear of the clothes. The hot suds and steam, by the action of the fire, is poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing them perfectly. It has been thoroughly tested, and pronounced unequaled as a Clothes Washer by those who have used it. All fabrics, from the finest laces to the bed-blanket, can be washed perfectly and with ease, without rubbing. For Flannels, it is invaluable, as the rubbing, rolling and pressing process must necessarily full them more or less. It is truly a labor and clothes saving invention. R. A. BIRD,
je11tf Agent for the Assignees for Maine.

For the Hair!
The new preparation recently prepared by us for the restoration of hair to its original color, which preparation, as can be seen by the certificate of the State Assayer, Dr. Cummings, is composed of entirely vegetable matter, is now offered to the public. We rely upon it for its virtues, and are willing to trust it upon the public at its intrinsic worth.
Read the following certificate:
PORTLAND, April 11, 1870.
Having examined a specimen of the Botanical Hair Restorative, submitted to my inspection by Mr. J. M. Todd, I am satisfied that it is what he claims it to be, a vegetable preparation pure and simple, and contains no mineral.
(Signed) H. T. CUMMINGS, Chemist.
It is for sale by all druggists and fancy dealers.
Prepared and for sale wholesale and retail, by
J. M. TODD & CO.,

To take place in the Front Harbor.
Committee on Regatta, G. P. Wescott, Isaac Jackson and W. H. Simonton.
Boats will come into line off Union Wharf at 8 1-2 o'clock A. M. Start precisely at 9 o'clock.
There will be Three Races, as follows:
FIRST RACE.
For Four and Six Oared Boats in the State, distance two miles. First prize Seventy-five dollars; second prize, fifty dollars.
SECOND RACE.
For Working Boats, pulled from the gunwale, distance two miles. One prize of thirty dollars.
THIRD RACE.
For Single Scull Wherries, in the State, distance two miles. First prize, thirty-five dollars; second prize twenty-five dollars; third prize fifteen dollars.
Military Parade!
There will be a military parade and review in the forenoon. The military will form on Congress st. at 10 1-2 o'clock, and proceed to Lincoln Park where they will form a hollow square, and witness the
Celebration of the Water Works!
where addresses will be delivered by Hon. Charles J. Gilman, in behalf the company and Hon. Benj. Kingsbury, Jr., in behalf o. the city.
The procession will again form in line and take up its line of march through the principal streets to the Western Promenade, when a
Grand Military Review!
will take place. Governor Chamberlain, accompanied by his mil Staff will conduct the review and conveniences will be provided for the public to witness the same.
For the evening there has been provided a magnificent display of
FIRE-WORKS.
PROGRAMME.
Rockets of the largest calibre, exhibiting every style of garniture known to the Pyrotechnic art, together with shells filled with gold rain, crimson, emerald and variegated stars, will be discharged in profusion from sunset until the commencement of the display with
No. 1—*Grand Illumination* of the vast area and assembled multitude by Indian and Chinese fires, of the most vivid and intense brilliancy, beginning with a light of pale blue and changing gradually to deep glowing crimson and afterwards to vivid green. This illumination produces an effect at once wondrous and startling.
No. 2—*Shields of Iris*—An immense wheel of fire, made to revolve with great velocity by large and powerful driving cases, the four arms of the wheel being decorated at regular intervals by pots and points of colored fires and the circumference surrounded by showers of spur and bee fire. The effect produced is one of great splendor, an immense shield of rainbow colors, surrounded by a golden halo, being produced.
THE NEW ILLUMINATED SHELL FIRED FROM HEAVY PROVED MORTARS.
No. 3—*Tree of Liberty*—A Tree of Fire tinged with green and discharging with a continued reports showers of golden rain, thickly mingled with stars of every color. At the base revolves a vertical wheel showing in rapid succession the National colors—Red, White and Blue—and the whole mutates to a Liberty Cap wrought in brilliant lance of appropriate colors and surrounded by a halo of Sun Fires. The whole terminates amid heavy and startling explosions.
ROCKETS OF CRIMSON STARS.
No. 4—*Gulcpade of Serpents*—A large piece formed of vertical wheels with a great variety of colors, China Flyers and Saxons, vertical and contra-revolving. These placed upon four arms, which are made to revolve with great rapidity, produce an effect at once comical and beautiful.
ROCKETS OF GOLD RAIN.
No. 5—*The Fountain*—A representation in pyrotechny of a Fountain in full play. The base of the structure is wrought in silver lance, interspersed with points and stars of crimson, jessamine and emerald fires, while the basin is supported by two dolphins also wrought in brilliant lance. A powerful jet of golden fire is thrown from the basin, which falls backs, and, overflowing the basin, falls in showers over the base, the mingling of the golden, emerald and other colored fires forming a piece of wonderful beauty.
SHELLS OF COLORED STARS.
No. 6—*Chinese Glory*—A revolving centre of Golden Fire, changing rapidly to crimson and emerald metals, suddenly to a circumference of jewelled points and *"jets de feu,"* instantly enlarging the structure to one of immense size. Heavy explosions terminate the piece.
ROCKETS OF GOLD RAIN.
No. 7—*Boquet Mobile*—A large piece composed of horizontal and vertical wheels, Saxons, Gerbs and China Flyers, vertical and contra-revolving. Each component part being decorated with brilliant color, a magnificent *"Boquet de Feu"* is formed, composed of jessamine, rose, emerald, purple and other colors.
ROCKETS OF COLORED STARS.
No. 8—*Turkish Cross*—A Cross with crescent shaped arms wrought in emerald and crimson fires, the points being ornamented with sparkling jewels. A blazing centre of Indian fires mutates suddenly to a circumference of Suns, backed by jets of Indian fires. The termination of the piece is startling in the extreme.
ILLUMINATED SHELLS.
No. 9—*Egyptian Pyramid*—A revolving base of emerald, crimson and golden fires mutates suddenly to a pyramid of variously colored flames with a zeika centre of blue and gold. The whole is surmounted by a blazing Sun of dazzling brilliancy and jets of Chinese fire are thrown from the circumference. The piece terminates with heavy and rapid explosions.
ROCKETS AND BOUQUETS.
No. 10—*Multiplying Star*—A centre of crimson and azure fire mutates to a circle of brilliant crimson and golden flame, which in turn extends to points or circles in colored fires, suddenly varying in size. From these points are suddenly thrown powerful jets of Indian fire, which meet and form an immense Star of golden and colored flame, ending with loud explosions.
No 11—*Kor-i-noor*—A beautiful representation in Pyrotechny of the far-famed Jewel now possessed by Queen Victoria. The rays of light and the beautiful changes of color seen in a large diamond are beautifully shown by this combination of the most rare and delicate tints known to the pyrotechnist, and the piece is one of the most beautiful known to the art.
ROCKETS OF CRIMSON STARS.
No. 12—*Line of Union Batteries*—Extending the whole length of the vast area and discharging, amid loud and continued explosions, showers of golden, emerald, crimson, purple and other colored stars, together with rain of gold, spur and bee fire.
ROCKETS OF SERPENTS.
No. 13—*The Day we Celebrate*—The motto July 4th, in mammoth letters wrought in brilliantly colored lance, is supported by a revolving base displaying the National colors of red, white and blue. Above the motto soars the AMERICAN EAGLE bearing on its breast the NATIONAL SHIELD also wrought in red, white and blue. Above and over the whole is thrown a halo of sun fires, and the whole terminates amid salvos of artillery in honor of the day.
SHELLS OF GOLD RAIN.
No. 14—*Aigrettes de Roulettes*—A large circle of *rayonant* fires with colored centre of dazzling beauty surrounding a common centre, which mutates from emerald to crimson and golden flame. From the circumference are thrown powerful and extensive jets of Chinese and sun fires, and the whole terminates with heavy explosions.
ROCKETS OF EMERALD STARS.
No. 15—*A Persian Rose*—An elaborate design in azure, emerald and golden fire surrounding a star-shaped centre with brilliant changes. The points of the structure are loaded with sparkling brilliants, and the whole mutates suddenly with heavy explosions to powerful suns and jets starting from a colored point of dazzling brightness. The effect of the many colors and sudden changes is beautiful and startling in the extreme.
ROCKETS OF SERPENTS.
No. 16—*Aurora Borealis*—A representation of the fitting and changing light of this great wonder of the Northern sky, formed of saxons, flyers and wheels revolving horizontally and vertically, and throwing out showers of golden bee and spur fires.
ILLUMINATED BOMBS.
No. 17—*Grecian Circles*—A combination of shield-shaped circles of azure, purple, crimson, golden and emerald fires arranged in pyramidal form and supported on a bouquet of parti-colored fires thrown from two small circles. From the top are discharged jets of golden and colored fires, intermingled with colored stars, and the whole terminates amid loud and continued reports.
ROCKETS OF SERPENTS.
No. 18—*Kaleidescope*—An arrangement of saxons and flyers, vertical and contra-revolving, intermingled with wheels of various sizes, the arms of which are loaded with points of crimson, azure, jessamine and purple fires, producing a constant changing structure of rare beauty.
ROCKETS OF SERPENTS.
No. 19—*Volcanic Battery*—An extensive battery mounted on an elaborately wrought base of beautiful color, throwing with heavy explosions clouds of stars of crimson, emerald, azure and silver fires into the air, mingled with rain of gold and spur fire.
SHELLS OF COLORED STARS.
No. 20—*Grand Finale*—Three enormous columns elaborately wrought in silver and golden lance, foliated and wreathed (lances), supporting double arches in colored fires with beautiful ornaments

THE PRESS.

Monday Morning, June 27, 1870.

The Conventions and the Common Schools.

The growing interest which is excited by the question whether the Bible shall be read in the schools is indicated by the introduction of something relating to the subject into many of the late religious gatherings. Of the prevailing sentiment among these religious bodies generally, that manifested in the recent Congregational Convention in Yarmouth is a fair illustration. While the more deep and comprehensive thinkers consider the question an open one as in the case of President Harris of Bowdoin College, or, like Dr. Joseph P. Thompson of New York, and Henry Ward Beecher, regard the compulsory reading or hearing of the Bible as a violation of individual rights, the majority are strongly the other way. But majorities are not infallible, and on any new question like this, appealing as it does so strongly to popular prejudices the minority are quite as likely to be in the right. In such a case opinions need to be weighed as well as counted.

It is urged and few deny it, that the Catholics will not be satisfied with the expulsion of the Bible from the schools. This however makes no difference. The question is not what will please the Catholics, but what ought Americans to do to carry out to all its logical consequences the doctrine of separating church and state. It is a violation of this doctrine to use the agency of government for the purpose of *forcing* religious instruction in any shape or manner upon an unwilling minority. The Catholics no doubt hate our common schools and would gladly destroy them. It is doubtful with no expectation of avoiding a conflict with them that religious reading in the schools should be dispensed with in those localities where there is not unanimity in favor of having such exercise. It should be done because it is the part of good generalship to secure a tenable position before provoking a conflict. If Protestants allow themselves to be drawn into a contest upon the untenable ground that the State is to show any partiality for their peculiar religious views, they will have to retreat sooner or later, and that retreat may be changed into an irretrievable rout, bringing with it the overthrow of our common schools. The choice is simply between secular common schools and no common schools. It will never do to abandon the principle of secular education by the State. It is properly within the sphere of the secular authorities to train the young to the duties and responsibilities of citizenship. Nothing else can assimilate the multitudes of every nationality now crowding in upon us. But let government confine itself strictly to secular education. It has nothing to do with religion or religious sects as such except to protect them from oppression, leaving them to fight their own battles.

A logical necessity is driving the more advanced of those who advocate the reading of the Bible in the schools to argue openly for a union of church and State. Thus Professor Taylor Lewis in a recent article in the *Independent* virtually insists that government should superintend the propagation of religion, and if the secular authorities have a right to enforce the reading of the Bible in the schools they should not stop there. Their work is but half done if this is a part of their work at all. They must assess and collect taxes for the support of religion and determine of what sort it shall be. It is time to pause before adopting a course that will involve such principles. The State need not and should not neglect the training of the moral and active faculties. The education of the heart needs more not less attention than it usually gets in our schools, and if right methods were employed, we might have better moral training in the schools even without the Bible than we now have with it. When we have the right sort of men the true religion will command their assent by its own inherent power without the aid of secular authority.

College Reform.

The season of college commencements is at hand, and it is proper for those who have the control of those institutions to be considering what new improvements can better qualify them for their mission to the young men whose destinies for better or worse then are so powerfully to influence. The last few years have witnessed signal improvements in the course of education at our larger institutions, and while those less bountifully endowed cannot undertake those improvements which are possible to a college with plenty of of funds and patronage, they can learn many things from their more favored rivals. Our Maine colleges cannot as yet have two full sets of professors, one for a classical and the other for a scientific course or provide for a system of university culture after graduating. Our colleges, too, are somewhat controlled by the system that has been transmitted to them from a previous generation when different ideas of education were held. Until recently expensive dormitories have been considered essential to a college, and when once capital is put into such buildings it is to late to recall it.

Lately the current of opinion among our more advanced educators has been turning strongly against the dormitory system. However pleasant it may be to the student in many of its aspects, it isolates him too much from the living, practical world around him, and fails to cultivate those social tastes and graces which are as much a part of education as Latin and Geometry. Many a young man has taken the step (it is but a step) from vacuity to vice when he might have been saved could the influences of respectable and refined society have been thrown around him in season. The readiness with which combinations among the students can be effected under the dormitory system, offers the greatest temptations to mischief, while for the same reasons, detection is almost impossible, even when the odious system by which professors are compelled to act the part of spies and police at the same time is worked to its utmost capacity. "Scrapes" would be far less common if the combustible elements were dispersed. Notwithstanding these objections, the greater cheapness of lodgings on the college grounds will make it necessary for many to avail themselves of the dormitories unless lodgings with board in private families can be procured at much cheaper rates than at present. However this may be, it is manifestly unjust to compel those who do not lodge in the dormitories to pay for the rent of them. This is to make the innocent suffer for the folly of the builders.

The experience of Cornell and Michigan Universities, and it may be of others, demonstrates the possibility of abolishing the "marking" system, as it is called, without lowering the standard of scholarship. It is acknowledged by all to be a most imperfect method of testing a student's proficiency, while it tends to concentrate his attention upon getting a good "mark," rather than upon the more solid though often less showy acquisitions. Having been tolerated for want of something better, it may as well now be laid aside.

There is also strong testimony in favor of educating the sexes together and giving them equal if not identical opportunities for improvement. Rev. J. Blanchard of Knox College tells us how Knox and Oberlin, which educate the sexes together, compared with five other Western colleges which started under more favorable auspices but restricted their privileges to males. "I have not the statistics at hand," he says, but the facts are so well known to the public that I hazard nothing in saying that the two last named institutions, (Knox and Oberlin,) could buy out all of the first five, and have funds enough left to endow an institution better than either of the five is endowed, that the last two have educated more males and *many more ministers* than the other five." He is no "woman's rights" man and says that, while he resolved that he "would never be president of any but a mixed college," he fully recognized that fact that women should be educated for domestic duties, though he did not think that should exclude them from the benefits of a liberal culture. He speaks from nearly twenty-five years' experience and ought to know. As to the effect upon discipline, he says the "general devilry" too common in colleges "perishes at once before female contempt." We leave the opponents of this not untried innovation to show, if they can, why it is not demanded on the ground of justice and economy.

THE canvass is about to open in earnest in North Carolina. Nearly all the districts and counties have made their nominations for the August elections. The different candidates have the field.

General News.

A Cuban Envoy Extraordinary from Cespedes is in Washington asking help for the insurgents, in view of establishing a confederacy including Cuba, Hayti and San Domingo, under the moral protectorate of the United States, which will be free of expense to the U. States Government.

The Spanish government in Cuba, it is said, gets information of insurgent movements on the island by telegraph from New York, and this causes the failure of nearly every expedition. Thus the landing of the Upton's cargo was known in N. York before it was known in Havana. There is a screw loose somewhere and somebody has either played the spy or else talked more than was convenient.

DELEGATES TO THE DISTRICT CONVENTION.—*Westbrook*—George Libby C. S. D. Fessenden, H. F. Milliken, F. M. Ray, M. G. Dow, A. B. Raud, W. S. Warren, J. N. Reed, A. T. Moses, J. R. Andrews, Chas. E. Boody—all Lynch.

Hollis—J. W. Akers, William Palmer, Jas. Knight, James Morton. Three are known to be for Lynch; one uncommitted.

No. Berwick—Nathaniel Hobbs, Sylvester W. Abbott, John H. Hammond, Charles W. Greenleaf.

Samuel P. Hancock, Joseph S. Maybury and Herbert M. Sylvester have been chosen as delegates from Otisfield to attend the County Convention at Saco the 29th. The delegation have been instructed by the town to vote for Mr. Lynch.

HOW HE GOT BUTLER ON THE HIP.—Mr. Randall got Gen. Butler on the hip Friday, and made a warm time in the House for a few minutes. It appears that Butler was not altogether satisfied with the Globe report of the Cuban debate of last week, and took the opportunity when the manuscript was sent him for revision, to fight it he thought it ought to be. This course led the stenographer, Mr. Rand, to call Mr. Randall had made to one of his remarks. The revision and emendation, and the correspondence with the proprietors of the Globe, on the subject, was presented to the House. Mr. Butler was a good deal taken aback at first, and looked somewhat embarrassed at the showing made by the letters and Mr. Randall's brief remarks. He recovered himself pretty soon, however, and of course was ready with an answer, which was that he did not hear the retort, and cut it out because he believed it must be a mistake, and then made a note which he thought would induce the Globe folks to see Mr. Randall about the matter. Mr. Randall very plainly showed that he did not believe this story, and in response to an insinuation from Mr. Butler that he was not in possession of all his faculties last week, stood up in white wrath and denounced Butler a dishonest man, a slanderer and libeller. To this Mr. Butler made no response and the matter then went to the committee on rules to report what shall be done about making changes in speeches.

Mt. Vernon—Meeting of the Vice-Regents of the Association.

MOUNT VERNON, June 22, 1870.

MR. EDITOR:—Perhaps it may not be altogether uninteresting to your readers to have a brief report of some of the proceedings at the Council of the Vice-Regents of the Ladies' Association of Mount Vernon, now in session at Washington's old home. Our own people have perhaps half forgotten that this beautiful estate is the property of the women of the Union, and even that our State of Maine played no ignoble part in furnishing the means by which its possession has been secured. I wish they could see as I am seeing now how well worth while it is to have this one spot for national pilgrimage, and know for themselves how judiciously their money has been expended.

Every day the steamer comes down from Washington with visitors from all countries, to whom the name of Washington represents a historic idea, and who wish to see the home in which he lived and died. Now that the council is in session the rooms reassume their hospitable aspect, and the days are divided into distinct portions; the morning hours for business, the noon is appropriated to the visitors brought by the boat and in the evening another business meeting is held. To those who know but little of Mount Vernon except in a general way a few particulars may serve to give a better idea of its importance and of the extent to which the Association hopes in the future to develope its resources and increase its attractiveness. The estate contains 200 acres of land, of which 25 are under cultivation. It requires from six to eight men to keep it in order, and these are under the charge of a Scotch gardener who makes of the garden and the greenhouse a small but steady source of income which will increase as fast as the funds will allow. The repairs which were necessary have absorbed a good deal of money but have been conducted with great care, and the current expenses have been managed with an economy rarely seen in a corporation. The grounds are exquisitely beautiful and considering the varieties of employment required from each of the employes, the result is an encouraging success.

The Council is occupied with receiving the report of the Regent for the period which has elapsed since the meeting of the last council; with the examination of the accounts; of the estate itself; and of the resources for the future. Also the very pleasant task is theirs of acknowledging with gratitude various donations which have been made from different parts of the Union. A few of these may be mentioned: The room where Lafayette slept while visiting here has been editrely refurnished by gifts from New Jersey; a very handsome carpet on the hitherto uncovered stair-case is the gift of Mr. Wm. B. Kendall of New York; a chair brought over in the Mayflower and once sat in by Washington, was presented by Mr. Ticknor of New Jersey; a suit of clothes worn by Washington, presented by Mr. McGregor of New Jersey; the plates for printing copies of Washington's will by Mr. Corcoran of Washington, who has stood the friend of the Association on more than one occasion, and who has promised a further gift of a hundred different kinds of evergreens for the grounds. Also several chairs of antique pattern and a fac simile of the chairs in Washington's parlor. From these things it will be seen that the plan of filling the house with contemporaneous articles of furniture, and of enriching it with objects which may interest visitors, has been well commenced. We hope that a wider knowledge of our wishes in this respect may bring to us many accessions, since old furniture, old pictures and old rifles of all sorts, become doubly interesting and valuable when they are collected together and placed where the largest number of people can examine them.

The following States are represented in the present council: Maine, Rhode Island, New York, New Jersey, Delaware, North Carolina, Georgia, West Virginia, Illinois, Wisconsin. The Regent presides in person, and the District of Columbia is represented by a Lady Manager. These ladies make the journey from their distant homes at their own expense, give their time and labor most heartily to the cause, and ask of the public only that it will believe that they have no selfish objects in view, and that they manage affairs with their best skill and judgment.

Believing that these matters have a claim to the attention of the public, and that a knowledge of them will awaken a response and rouse a sympathy which will make the work of the officers of the association more easy and more profitable, I have endeavored to make a rough and hurried sketch of those things which occur to my mind in the short interval between two business meetings. You will find that our proceedings have frequent notices by the press of different parts of the country, and in the New York *Express* of June 21st a long and interesting article may be found from the pen of the Vice-Regent of that State. M. J. M. S.

Letter from Monmouth.

MONMOUTH, June 25, 1870.

To the Editor of the Press:

Our "cold snap" has given place to another "heated term," as the "sage of Brooklyn" used to say. Yesterday, at 2 p. m., the mercury stood at 90° in the shade in a very cool office, directly over the stream, and to-day everybody is in a "melting mood."

I heard a few days since from one of our older citizens a story of an old time Dogberry, which seems too good to be lost. The justice in question held a commission as ensign in a militia company, and was accustomed to sign himself, "Ensign Jonathan Jones, Esq., (the name of course is apochryphal.) When the direct tax was levied in 1813 or '14 some of his neighbors called on him to ascertain the meaning and the object of the levy. Being as ignorant as they were upon the point he promised to visit Squire Perley, at Hallowell, the next day and ascertain. After his return they came to him to know the result of his inquiries. "Well, Squire, did you find out about the direct tax?" asked one of them. "Yes, and I wonder we didn't all on us know what it meant 'thout takin' the trouble to go down there t' inquire." "Wal, what does it mean? what's it for?" "I'll tell ye what's for. It's tew support knavery and prevent the resurrection; that's what's for!" Some people think that in the first part of his statement he "builded better than he knew."

I note the following in the *Transcript* of this week: "The *Argus* states that the Methodist clergyman at Waterford, on Sunday week after his sermon, was noticed to follow a young lady who had gone in a direction otherwise than homeward. They were watched and detected *flagrante delicto*. He has fled, leaving behind his wife and a ruined girl."

Knowing the facts in the case, I can vouch for the truth of this statement, except in a few unimportant particulars, in which I desire to correct it. The affair did not occur at Waterford, nor is the pastor of the church at Waterford connected with it. It did not occur on Sunday week. He had not preached on that Sabbath. He was not seen to follow any young lady—nor were they detected in any unlawful act. He has not fled, and consequently has not left his wife nor any girl ruined by him behind. The Methodist church has no pastor. In other respects the statement is undoubtedly correct.

Yesterday afternoon as Mr. Robert Macomber of East Monmouth, was mowing in his front yard, his little son, aged about six years, came out to ask him to spare some little shrubs, and was told that they should not be cut, and that he must run away, which the father supposed he did. The next blow of the scythe, however, fell on his leg near the ankle, severing the heel cord and two arteries. Dr. Marston, who was immediately called, dressed the wound and the boy is doing well. T.

The International Convention of Young Men's Christian Associations.

INDIANAPOLIS, Ind., June 23, 1870.

To the Editor of the Press:

The Eastern delegation to the International Convention of Young Men's Christian Associations arrived here this morning at 3 o'clock, ten hours late from New York, having been detained that length of time by a railroad accident which occurred just after crossing the Alleghanies and before the train had got at full speed on the down grade. Although three passenger and one sleeping car were quite badly smashed, only a few passengers were injured, and those slightly, while the delegates escaped uninjured. During the four hours we were waiting for a special train to take us forward prayer meetings were held in the several cars, all with special reference to the providential deliverance from a most fearful disaster.

The reception of the large number of delegates who have come to this Convention by the citizens and members of the Association here has been most cordial in its character.

Hon. Wm. E. Dodge, Jr., President of the Convention at Portland, is detained at home by an injury received while at the South, and the Convention was called to order at 10 o'clock this morning by 1st Vice President Judge MacLain, of Halifax, who conducted the opening exercises with much credit. The devotional services after opening were very interesting, and the Convention has started with promises of real success. There is a determination on the part of all to confine the work of the Associations to the objects for which they were instituted, yet no practical christian work which they can do, and which is not attempted by other agencies, will be neglected because their constitutions do not cover all the fields of labor in which Christians are called to work.

The following are elected officers for the year 1870 1:—President, Hon. J. S. MacLain, of Halifax; Vice Presidents, Hon. S. S. Fisher, of Washington, Hon. George H. Stuart, of Philadelphia, Rev. S. H. Spaulding, of Providence, Rev. George Douglass, of Montreal, Messrs. H. J. Cowles, of Wisconsin, J. W. Ray, of Indiana, J. H. Cheever, of Ohio, C. E. Colchester, of South Carolina, Andrew J. Chase, of Maine, A. Whitney, of California, B. F. Jacobs, of Illinois, J. C. Battram, of Mobile, George Hague, of Toronto; Secretaries, R. H. Hinckley, of Philadelphia, D. C. Bell, of Wisconsin, C. G. Swensburg, of Michigan.

The announcement by the Nominating Committee that the selection of the gentleman from Halifax to preside was made not only because courtesy required it, but to show our neighbors across the line that we had no sympathy with, and frowned upon all attempts to alienate us, come from whatever source they may, was received with rounds of applause.

The business of the Convention has progressed finely to-day. More delegates are expected on the evening trains, and this evening, at the Academy of Music, where the Convention holds its sessions, the Welcome festival will be held and Gov. Baker will preside. The weather is beautiful, and Indianapolis with its broad avenues and shady streets, its splendid mansions and public institutions never looked more inviting to the eye of the stranger than at this season of the year. * * *

Latest News by the Mails.

The Ecumenical Council will sit through the summer, not adjourning finally until Easter. One hundred speeches in inscribed on the infallibility dogma are yet to be heard. A new definition has been proposed, designed solely to disorganize the minority. The fathers who are hostile to infallibility continue to receive congratulatory addresses.

The Inman steamship City of Brooklyn, which left Liverpool on Thursday for New York, ran down and sunk the Geizer off Arklon, Iceland, Friday. The crew of the Geizer were saved. Steamer not injured and proceeded on her course.

The fight between the New York Central and Erie on the reduction of freights is confined exclusively to cattle and live stock. Six weeks ago the rate was $20 per car to New York. Friday the Erie reduced the rate on cattle from $40 to $1 per car, and the Central was obliged to follow. The Erie carries sheep and hogs to New York at one cent per head and the Central carries cattle from Suspension Bridge to New York at the same rate as from Buffalo, $1 per car; hogs $44 per car and sheep $40 per car. Dealers in stock seem embarrassed by the reduction, as they derive no benefit from it, freight being generally included in the price paid at Buffalo. The general public hope for a corresponding reduction in the price of fresh meats.

The following nominations by the President were sent to the Senate Saturday:—Alonzo B. Cornell to be Assistant Treasurer at New York city; William C. McGowan as Assistant Paymaster in the Navy; Homer T. Law to be Assistant Surgeon in the Navy.

The receipts of cotton for the week ending Friday night at all ports were 12,551 bales against 13,526 bales last week. The exports for the week were 20,353 bales, of which 15,123 bales were to Great Britain and 5230 to the Continent. The stock at all ports is 193,496 bales.

A fire at Mendota, Ill., Thursday, destroyed one and a half blocks. Loss, $25,000; insured $17,000.

Personal.

The report that Rev. Dr. Leonard W. Bacon had joined the Romish church was without foundation.

Gov. Marshall of Minnesota, refuses to be a candidate for Congress under any circumstances. The St. Paul *Press* says he "is in better business."

Green Clay Smith and others have signed published a call for a meeting of the Kentucky survivors of the Mexican war, to be held in Richmond, Ky., on the 4th of July. The object is to make arrangements for a permanent organization, &c.

A fourteen year old boy was saved from drowning at Toronto on Sunday by another boy only ten years old, who, hearing his cry, jumped into the river, without waiting to take off any of his clothes, and dragged him out.

The Augusta (Ga.) *Rep.*(J. E. Bryant's paper) says: "Mr. Akerman is well known to the people of Georgia as one of the ablest lawyers in the State—as able as Toombs or Ben. Hill.—We believe him to be by far the most influential Republican in the State, and his appointment will do much to settle the difficult in our party. In the name of the Republicans of Georgia, we thank the President for selecting this able lawyer and Christian gentleman for a place in his Cabinet."

A New Hampshire girl took a pinch of snuff the other day and sneezed five hours without ceasing, winding up with a lively attack of spasms, which left her in a critical condition.

A Florida man says he will have about 3000 dozen pine apples for market this year, and that he expects to realize from $6 to $8 a dozen for them. He further says that he and his three little sons do all the labor necessary in their cultivation.

Three denials come from Jeff. Davis: First that he has consented to deliver an address before a Mississippi agricultural society; second, that he is preparing his political memoirs; third, that he is writing a novel.

It was reported in Paris on Saturday that ex-Queen Isabella of Spain would sign her solemn abdication on that day. Marshall Bazine and others would be present as witnesses.

CLERICAL FUN.—Plymouth church went on an excursion to Iona Island last week. Going down on the steamer Mr. Beecher was taken into custody and arraigned before a crowded court, held on one of the pretty glades of the island. The judge was the Rev. M. Galliger, and the jury was made up of ladies and gentlemen, Mr. Camp acting as foreman. Mr. Beecher, who was utterly unconscious of having committed any offense, was charged by the prosecuting attorney, Mr. Sherman, with having gone over to the Church of Rome. A long indictment was read, but in substance this was the charge, and in proof of it a number of witnesses, prominent members of his own congregation, testified to this fact. The strongest evidence was, however, the production of a photograph of Mr. Beecher, officiating at the altar of a Romish church arrayed in the full canonicals of a Roman Catholic priest. Mr. Rockwood, the photographer of Brooklyn, who had produced the photograph, gave evidence as to the identity of the portrait. Mr. King appeared as counsel for the distinguished defendant, and did the best he could for his client. The jury, however, without leaving the box, found the defendant guilty, and the judge passed the very capital punishment of ordering the six lady jurors to kiss the pastor of Plymouth church, a punishment that was so highly esteemed by the delinquent that he astonished the court by asking for the empanelling of another jury.

Ex-Senator Grimes is said to have written: "Life is not now measured by years—events make the sum of human life." A philosophical statement.—*Exchange.*

Yes; and one Young, a poet of some celebrity, wrote something that the above reminds us of. He said:

Virtue, not rolling suns, the mind nmtures;
That life is long that answers life's great end.

State News.

ANDROSCOGGIN COUNTY.

Nathan Bangs has been appointed Postmaster at West Durham, vice Charles S. Burgess, resigned.

The *Journal* says it is reported that the owners of Central Block have decided not to reconstruct Central Hall, which was recently destroyed by fire in Lewiston.

AROOSTOOK COUNTY.

The Houlton *Times* states that the barns of Alex. Lowry, about two miles from the village, were struck by lightning on Monday evening last. There were three barns connected together, and almost instantaneously with the descent of the bolt, they appeared covered with one sheet of flame. The wind was blowing a gale, and so rapid was the progress of the flames, that no portion of the contents, with the exception of one horse, was saved. Mr. Lowry loses with the buildings, a valuable mare, new double wagon, six tons of hay, sets of harnesses, all his farming utensils, valued at $2000; insured for $400.

HANCOCK COUNTY.

The soldiers' monument at Bucksport was lately dedicated under the auspices of Francis E. Treadwell Post No. 25. The procession moved in the following order:—Bangor Comet Band; Torrent Engine Co. No. 2, Foreman Snowman; Deluge Co. No. 3, Foreman Gunn; Orator and Department officers; Post 25 G. A. R., under command of Sr. Vice S. B. Warren; Post No. 12, Bangor, S. V. Wilson; Public Schools, Monumental Association, Students of Seminary and citizens. During the passage of the procession minute guns were fired from Fort Kent.

KENNEBEC COUNTY.

Speaker Blaine on Friday procured the passage by the House of a joint resolution donating six condemned cannon and twenty round-shot to be used in the erection of a soldiers' monument at Gardiner.

Col. Merriam of the U. S. Army, arrived at his home in Waterville, Thursday night, with the remains of his wife and child who were drowned in Texas some two months since.

The Gardiner *Reporter* says, on Friday, as the workmen employed upon the Gardiner Hotel were taking down the staging around the ell, the whole staging went down suddenly with a crash, taking with it Mr. Charles Martin, of Pittston, who fell from the third story upon a pile of rubbish, which buried him entirely from sight. It was thought that he must be seriously injured, but he soon emerged from the *debris*, with but slight bruises.

The *Reporter* says on Monday last thirty-five vessels were loading, and waiting their turn to load, at the various ice houses between Gardiner and Richmond.

LINCOLN COUNTY.

At a regular meeting of Post No. 3 G. A. R., at Boothbay, held Thursday evening, 23d inst., the following officers were elected for the ensuing six months:—A. W. Lewis, P. C.; Silas Smith, S. V. C.; Henry Lake, J. V. C.; John E. Kelley, Adjutant; James R. Auld, Quartermaster; John Hanson, Surgeon; Stephen E. Welch, Chaplain; B. P. Dollof, Officer of the Day; Hiram Perkins, Officer of the Guard. It was voted to adopt the name of "Weld Sargent," Post No. 3, in honor of a deceased comrade late in arms.

OXFORD COUNTY.

Thirty years ago two boys attended school in Bethel, little thinking that they would grow up, one to be Governor of Maine, and one to be Governor of California. Yet such proved to be their unhappy fate.

SAGADAHOC COUNTY.

The Bath *Times* is to be changed to an evening paper on and after the first of July.

WALDO COUNTY.

John C. Stowers has been appointed Postmaster at Sandy Point, vice Nathaniel Stowers, deceased.

During the tempest last Monday, the light ning struck a tree in the pasture of Capt. Elisha K. Pendleton, in Islesboro', killing his mare, which was near, and destroying a nest of fish hawks in the top of the tree.

The Belfast *Age* learns that during the thunder shower last Sunday night, the barn of Mr. Gordon of Belmont, was struck by lightning, set on fire and consumed, together with a hog, calf, farming tools, &c.

WASHINGTON COUNTY.

The Machias *Republican* says during a thunder storm at Millbridge last Monday the Union meeting house was struck by lightning, doing considerable damage. It struck also the mainmast of schooner Jesse, the barn of Capt. D. Brown, the school house in district No. 6, and several other places.

ERRATUM.—The types on Saturday made us speak of ex-Mayor Frank Jones as the prospective *Republican* candidate for Governor of New Hampshire. We wrote *Democratic.*

SPECIAL NOTICES.

The Living Machine.

Injure the main spring of a watch, and every portion of the works become disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further, for as the weakness or other imperfections of the main spring is indicated on the face of the time piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in lustre and intelligence, and there is worn, anxious expression in the whole countenance which tell as plainly as written words could do, that the *great nourishing organ* whose office it is to minister to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be *the only thing needful*. The old new one, but the stomach can only be renovated by a strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopoeia have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful stomachic effects a perfect and permanent cure. In all cases of dyspepsia, the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and reinvigorating every secretive and assimilating organ on which bodily and mental health depend.

Three Day's Grace!

C. W. WINGATE,

Will sell from his stock at great BARGAINS previous to moving from the city, for three days (only) more, Monday, Tuesday, and Wednesday, June 26, 27 and 28. Delegates to Saco.

The full list of delegates from Portland to the Saco Convention on Wednesday is as follws:

Ward 1.—Henry H. Burgess, Henry P. Dewey, Joseph D. Decelle, Charles A. Walden, Oliver P. Shepherd, N. M. Littleton.—Chosen by 74 to 10.

Ward 2.—Augustus F. Cox, George M. Elder, Simon M. Sawyer, Henry C. Lovell, John J. Wingate, James I. Libby. Chosen by 109 to 39.

Ward 3.—E. R. Staples, Lorenzo Taylor, S. S. Rich, Wm. P. Hastings, Frank C. Emery, Thomas Wildes. Chosen by 108 to 19.

Ward 4.—A. P. Morgan, Joseph A. Locke, C. O. Leach, D. R. Ricker, Osgood Bradbury, Joseph Bradford. Chosen by 54 to 24.

Ward 5.—Augustus E. Stevens, Ezra N. Perry, Stephen Marsh, Samuel Thurston, Frank Merrill, Elisha Trowbridge. Chosen by 48 to 16.

Ward 6.—Frank Fessenden, Wm. H. Stephenson, Fred N. Dow, John G. Hayes, Geo. R. Davis, John W. Perkins. Chosen by 54 to 24.

Ward 7.—Sam'l E. Spring, Isaac D. Merrill, Nathaniel S. Gardner, Ambrose Gallinger, Benj. Burnham, Henry B. Hart. Elected 103 to 19.

At Large.—Woodbury Davis, Rensellaer Cram, Neal Dow, Woodbury S. Dana.

Brief Jottings.

Leighton, the artist, will start on his summer tour to the western part of the State early next month, commencing with Hiram and Fryeburg.

G. L. Bailey, at his store on Exchange street, exhibits a beautiful trout rod made of split bamboo, in three joints, each joint composed of four pieces. It is twelve feet long and light as a feather, metaphorically speaking. It is mounted in German silver and is valued at $30.

The hotel on Little Chebeague Island, kept by Mr. Abraham Osgood, has been repainted and refurnished the past season, and is a delightful summer resort. We hear that a steamer is to be put on the route between this city and Little Chebeague shortly.

The *Star* says that a young man on Friday night took a lantern from the street where repairs were going on, burglariously entered a house and was discovered by a young lady inmate, who awoke, standing by her bed. He escaped, but the family were terribly frightened.

Deputy Decelle went to Lewiston on Friday and brought to this city an insane man who had wandered away.

Hale presents some novelties in his window well worth looking at.

A lynch pin breaking caused the front of a wagon to descend to the pavement on the corner of Middle and Plum streets Saturday morning. Nobody hurt and the damage to the team was trifling.

No Municipal Court business Saturday.

Deputy Sterling has seized a quantity of liquers belonging to James Gallagher on Fore street.

The Odd Fellows will have an excursion next month.

The wind changed to the east Sunday morning, a most agreeable relief, and we enjoyed a shower. Thermometer 70°.

THE WEATHER.—Friday and Saturday were hot, none of your murky, sticky heat, but good honest baking weather. Friday the thermometer crept up to 88° and people took off their collars and unbuttoned their vests and sought cool shady spots—well pleased if they were lucky enough to find them. But Saturday was a day that even Calcutta would have despised. At seven o'clock in the morning the Mercury stood at 81°. At 1 P. M., William Senter's thermometer on Exchange St. marked the fair 100°, while on the corner of Free and Congress streets in a little passage way, in a store (through which there was a draft), the thermometer indicated 104°. At 6 P. M. it stood at 90°, and about ten o'clock in the evening a little breeze brought it down a couple of degrees or so. A gentleman took a thermometer into the upper story of the new Post-office building at noon and in five minutes the mercury ran up to 120°. Over at the Rolling Mills the thermometer varied from 104° to 140° in the room where the men were at work and the gangs had to be relieved every few minutes. A couple of showers passed over the city about 3 P. M., but we were not favored with any rain. The storm prostrated the wires of the International Telegraph Co. west of this city, and at Biddeford the lightning smashed the operator's machine and burnt a hole in his table. Mr. Henry Goddard who has kept a weather record for a half a century says it was the hottest day experienced in this city for twenty-five years.

People did'nt travel much about the city Saturday. During a portion of the day you might have thought it was the Sabbath. Locals were at an awful discount, even a murder would'nt have roused a reporter's enthusiasm in the least. Apothecaries remained all day with one hand on the faucet of the soda fount, and about 10 P. M. one gay young apothecary who had been sensibly diminishing in size all day, turned into a grease-spot and was shovelled up by the clerk, who relieved him, and thrown into a barrel to make over into candles. One apothecary sold 1575 glasses of soda between 8 and 11 P. M. We think our genial friend of the *Transcript* would have considered *that fountain* on Congress street a fair item.—All the evening the streets were crowded by people who could't stay in the house. Dogs in the upper part of the city were too hot to bark, which was a great comfort, and little babies too weak to cry. *Punchinello* hit our feelings exactly when he said,

Oh for a lodge in a garden of cucumbers!
Oh for an iceberg or two at control!
Oh for a vale which at midday the dew cumbers!
Oh for a pleasure trip up to the Pole!

Oh for a little one-story thermometer,
With nothing but Zeros all ranged in a row!
Oh for a big, double-barrelled hydrometer,
To measure this moisture that rolls from my brow!

Oh that this cold world were twenty times colder!
(That's irony red hot it seemeth to me.)
Oh for a turn of its dreaded cold shoulder!
Oh what a comfort an ague would be!

Oh for a grotto by typhy heaven,
Scooped in a rock under cataract vast!
Oh for a winter of discontent even!
Oh for wet blankets judiciously cast!

Oh for a soda fount spouting up boldly
From every hot lump-post against the hot sky!
Oh for p oul maiden to look on me coldly,
Freezing my soul with a glance of her eye!

CONVENTION OF REPUBLICAN DELEGATES.—The delegates to the Republican District Convention to be held at Saco on Wednesday next, met at Reception Hall on Saturday afternoon to choose four delegates at large. The meeting was called to order by Fred. N. Dow, who nominated H. B. Hart for chairman, who was elected. J. A. Locke was chosen Secretary. On motion of Osgood Bradbury a committee of one from each Ward was chosen to select four names. The committee consisted of S. E. Spring, F. N. Dow, E. Trowbridge, Osgood Bradbury, E. R. Staples, H. C. Lovelt and C. A. Walden. They offered the names of Woodbury Davis, Rensellaer Cram, Neal Dow and Woodbury S. Dana, who were elected. The delegates are to leave in the 8.40 a. m. train Wednesday, returning in the trains that are due in the city at either 5 or 8 p. m.

The State street Church and Society will hold a Strawberry Festival and Fair at the vestry of the church, we are told, on Wednesday afternoon and evening next.

To-day the agony commences for the pupils in the public schools and lasts most all the week.

There were seventeen inmates at the station house on Saturday night.

Two little girls were carried to the station house yesterday who had lost their way.

We heard last night that Westbrook was visited by another hail storm Saturday afternoon. How they ever got any vapor to congeal such a hot day is the mystery.

PORTLAND BAND.—The Portland Band, J. Cole, leader, will turn out to-day with twenty-one pieces, among which will be three clarionets, to accompany the Knights Templar to Bangor. The band has been working faithfully the past season, and as proud of it as we always have been, we believe they will win new honors for themselves on their eastern excursion.

SCHOOL COMMITTEE EXCURSION.—On Saturday last the members of the School Committee took advantage of the genial warmth that prevailed to make their annual excursion to the islands. It is not necessary for us to expatiate upon the temperature, we think we have done it full justice elsewhere. Suffice it to say that leaving Custom House wharf in the Gazelle at 7 A. M. the Committee with their guests were shortly landed at Diamond Cove where a splendid breakfast was served which was fully appreciated by a party of gentlemen of well-known gastronomic ability—School Committees and Overseers of the Poor, having the reputation of being connoisseurs in the art of good living, or to speak more plainly, "can make a first-class feed look sick" quicker than any other body of men. Breakfast being over it was thought best to confine pleasure with business, so a regular meeting was held under the lofty pines, the President, Rev. Dr. Shailer, in the chair. The resolutions offered by Rev. Mr. Root at a former meeting were brought up and passed with a few unimportant modifications. The gist of these resolutions is to the following effect. In future all applicants for positions as teachers in the public schools in Portland will be required to undergo an examination before a committee composed of Messrs. Root, True, Shailer, Stevens and Burgess to prove their fitness for the appointments, and those who desire positions in the High School will be required to undergo a special examination.—Those teachers now belonging to the schools who can show evidence of their having passed satisfactory examination in the past will be entitled to nomination without examination.—These examinations will take place in three weeks.

The graduating class of the High School numbering 64 pupils, were admitted to graduation and the usual monthly bills and salaries were audited.

A sumptuous dinner was served by Barnum about one o'clock, by which time the party had become pretty well baked, and one gentleman's head had been frescoed a rosy pink. After dinner the island committee, composed of Messrs. Gordon, Bailey and Dresser, took a sail-boat and proceeded to the Peak's Island school, presided over by Miss Blake, the Principal, and Miss Fairweather, Assistant. The school was in first-rate condition and made a favorable appearance, while Miss Fairweather was as plump, pretty and agreeable as ever. We believe the Island Committee is a favorite committee now-a-days. The average at the school during the term has been about fifty.

Having finished the examination the committee embarked on the Gazelle about 5 1-2 p. m., touching at Diamond Cove for the rest of the party, who had been indulging in a feeble attempt at quoits, and arrived home at 6 p. m. not quite satisfied as to whether they had enjoyed themselves or not, but finally decided that, barring the heat, they had passed a very pleasant day.

TORNADO AT THE OCEAN HOUSE.—A tremendous tornado passed over the Ocean House on Saturday afternoon, which was most frightful to witness, as we learn from a spectator. About three o'clock a black, angry looking cloud was seen coming up from the northeast, but Mr. Chamberlain, the proprietor of the hotel, said he thought it would pass over like the other clouds and they should get no rain. But in a few moments the storm burst upon them in all its fury, consisting of wind and rain. A boat standing on the shore by the fish house was taken up by the violence of the tempest, carried some five rods and broken in two. The fish house was split in two as if it had been paper, the earth was torn up in places, a chimney on the hotel was partially torn down, as well as several chimneys belonging to residents in that vicinity, the house shook like a leaf and the rain was driven in around the sashes of the windows so as to badly wet the carpets. A great limb, as large round as a man's body, was twisted off the big tree in front of the house as if it had been a twig and the salt water from the ocean was blown up on to the leaves of the tree, a long distance, causing them to shrivel and wither. The rain poured down in such torrents that, united with the wind, you could only see a few rods out of the windows, and a stream of water flowed down the hotel stairs wetting everything. The storm lasted about half an hour, and passed away as suddenly as it came. Mr. Chamberlain says it was equal to the great gale of last September in violence.

STATE STREET CHURCH.—Last evening Rev. James Cameron preached a very able sermon at this church on the subject of faith, illustrating the subject by a sketch of the life of the prophet Elijah. Mr. Cameron's history is quite a romantic one. He is a Scotchman by birth, and an artist by profession. He came to this country some thirty years ago and was in the massacre of Lookout Mountain, Tennessee, the Vicinity of Lookout Mountain, Tennessee, at the time of Hooker's great battle. He was a strong Union man and has a claim against Government now for some $25,000 worth of property destroyed at the South. After the war he was travelling in the Lake region of this State and was inexpressibly charmed by the scenery there. He also felt that there was a great need of a church there, and by his efforts established one at Greenville, foot of Moosehead Lake. A minister was supplied to the church, but about three months ago Mr. Cameron was ordained a clergyman, his friends telling him that he was peculiarly fitted for the profession, and when the people at Greenville heard of the fact they said if he did not preach to them they would have no pastor. He is therefore settled over them, and the parish is composed of all denominations. A contribution was taken up last evening to furnish the church with a bell and $70 was contributed, which added to a contribution of $25 from the Sunday School makes a total of $100.

FOURTH OF JULY.—It will be noticed perhaps in the programme for Fourth of July heretofore published, nothing has been said about a trial of steam fire engines on that day. We understand that such a trial will take place at 4 p. m. for a silver trumpet, the particulars of which will be arranged by a committee from the Engineers and Committee on Fire Department. The military companies from Norway, Auburn and Augusta, will be present, and it is expected also that arrangements can be made to-morrow to bring the Bangor, Belfast and Bucksport companies. The Portland & Kennebec Railroad Company decline to convenience the Skowhegan company, so that it is not probable they will be present. What is to be desired now is that the appropriation of the $1000, asked for in order that the sailing regatta may come off, and several other interesting features. We trust that the City Government will not be "penny wise and pound foolish" in this matter. Better have a complete celebration in all its appointments than to be trying to make a dwarf's coat fit a giant.

EXAMINATION OF TEACHERS.—It will be seen, by reference to our advertising columns, that the School Committee is once more recognizing majesty of the law. Candidates for teacherships can no longer rely upon the good-will of this and that one, and half a dozen t'other ones of the committee to "get in," but must stand or fall upon their own merits. This is as it should be, we presume to think. But we have good authority for assuring would-be candidates that the examinations intended will not be at all frightful, the object of the committee being to discover, not the highest order of mere scholarship, but that reasonable familiarity with subjects to be taught and especially that ready and available "common sense," without which all teaching is worse than ineffective. We are more than ever disposed to think well of the intent and endeavor of our School Board, and to believe that the important interests intrusted to them will be faithfully guarded.

DEMOCRATIC WARD CAUCUSES.—At the Democratic Ward caucuses Saturday evening the following delegates were chosen to the State Convention Tuesday:

WARD 1—Robert Dresser, William Y. Jones.
WARD 2—George O. Gosse, Florence McCarthy.
WARD 3.—William G. Davis, Thos. Means.
WARD 4—S. H. Tewksbury, S. F. Merrill.
WARD 5.—Charles H. Haskell, A. K. Shurtleff.
WARD 6—Bion Bradbury, George F. Emery.
WARD 7—W. H. Clifford, Charles H. Meserve.

Subsequently in convention choice was made of S. J. Anderson as delegate at large.

The convention adjourned to meet at the Falmouth Hotel at 9 o'clock Monday evening to agree upon concert of action. The name of Charles P. Kimball, Esq., was quite generally mentioned in connection with the nomination, and we also found that Gen. Roberts of Bangor, and Major Hastings of Fryeburg, had been suggested as possible candidates before the convention.

G. A. R.—At a meeting of Post Bosworth No. 2 held Friday evening, the following officers were elected:

W. B. Smith, P. C.; S. C. Smith, S. V. C.; Adam Clark, J. V. C.; Chaplain, Rev. N. W. T. Root; Adjutant, Samuel P. Graves; Quartermaster, George H. Libby; Officer of the Day, Ferdinand Smith; of the Guard, C. F. Moulton; Sergeant Major, J. M. Safford; Quartermaster Sergeant, Charles S. Douglass.

It was decided to have an excursion and a committee was appointed to select the time and place and make the other necessary arrangements. It was voted to accept the invitation of the City Government to participate in the celebration on the Fourth of July.

LIGONIA VILLAGE.—As we have stated in another place, the heat at Ligonia Village on Saturday was intense; in the yard of the Kerosene Works the thermometer stood at 100°. A Swede employed in the Atwood Lead Works was prostrated by sunstroke, and remained in an insensible condition for some time, but has now recovered.

Although there was no rain accompanying the storm which passed over the village the thunder was terrific, and the lightning remarkably vivid and played curious pranks. The thunder was very heavy and burst over the village like the rattle of musketry. The lightning struck a pole of the International Telegraph line and one belonging to the Kerosene Company's line, shattering an insulator, slivering the post and throwing splinters more than a hundred feet. The electric fluid was distinctly seen running over the pipes in the yard of the Kerosene Works, and a train of cars loaded with iron standing on the Rolling Mills bridge was lightened up with a wierd flame.

A match game of base ball was played Saturday afternoon on the Rolling Mill grounds between the Rivals of the city and the Unas of Ligonia. The Unas were the victors by a score of 36 to 11.

RAILROAD ACCIDENT.—On Friday last the passenger train on the Grand Trunk road due here at half past two, was thrown from the track a half a mile the other side of West Paris. The rails expanded owning to the heat of the sun, and the locomotive was thrown over an embankment on to its side and badly smashed. A baggage car and box car were driven into each other like the joints of a telescope. The acting engineer of the train, Mr. Warren Noyes, had his face badly bruised and the fireman received slight injuries. A clergyman with his newly married wife had been riding on the engine for quite a distance, and had left the train only a few minutes before at the last station—a narrow escape. The train arrived in the city four hours late. Several accidents have occurred, we are told, at this spot lately.

Miscellaneous Notices.

F. O. BAILEY & Co. will sell to-day at 12 o'clock the large Wooden Building, No. 27 Cotton St. See Auction Column.

OIL PAINTINGS.—In consequence of the very warm weather the sale of Oil Paintings which was to have taken place at No. 5 Deering Block, Saturday, was postponed to this afternoon at 3 and 8 o'clock P. M. The gallery will be open from 9 o'clock this morning to time of sale.

AMONG the most useful of recently invented cooking utensils is the *American Meat Broiler*, for sale by C. C. Tolman, Market Square, by which beefsteak, chops, chicken, fish, &c., are broiled in half the time required by the usual method, and retain all the rich juices and flavors, doing away with all smoke or smells, and can be used over either wood or coal. For toasting bread it can't be beat. It is well worth trying. Price, with full directions, $2.

PORTLAND THEATRE.—People may be fond of theatricals, but they must have been monomaniacs on that subject if they could have confined themselves in a theatre Saturday night. We couldn't, and therefore cannot speak as to the merits of the performance. To-night, however, "Fernande" is to be repeated by particular request, and we should advise all who desire to witness a bright, sparkling play, with melo-dramatic effect, to be sure and attend. Our criticism of the performance of this same play on Friday night was accidentally omitted through a misunderstanding, so that we will say now what we intended to say then, that Miss Reignolds' conception and delineation of the high born French woman who is nevertheless a Pariah, in the various passions of love, jealousy, revenge and remorse is one of the finest pieces of acting ever seen in Portland or elsewhere, and alone entitles her to the name of *artiste*. We have criticised Miss Reignolds' frequently, very severely from a sense of duty, because certain features, while they might please others were not to our taste. Those features have no prominence in this effort, only what is most worthy of her reputation. If she is as well supported to-night as she was on Friday, we can promise a dramatic treat.

WHO will have another box of good collars for 3 cents, go to Burleigh's, 87 Middle street.

IF you want good coffee, buy Pasha Ali Coffee, advertised in another column. je25-2t

NICE all wool suits $13 00 at Burleigh's 87 street.

SPLENDID lot Mohair Lenos, all colors, received to-day at Cogin Hassan's new store, 129 Middle street. Price 15 cents a yard.

WE learn that there will be a Strawberry Festival at Allen Mission Chapel, Locust street, Wednesday evening. Admittance free. Refreshments for sale. je-27-2t

JOB PRINTING.—Send your orders for Job Printing to the Daily Press Printing House where they will be promptly attended to at the lowest possible rates. WM. M. MARKS.

Go to Burleigh's, 87 Middle street for your boys' clothing.

IF you wish for India rubber hose go to Cooper & Co.'s, 109 Federal street. They keep all kinds of Plumbing materials, and sell them as low as at any store in the city. Try them. May 5-tf.

SHAW, 147 Middle street, has just returned from a visit to the manufacturers with 100 dozen men's and boy's straw hats, all new styles and bought at reduced prices. They will be sold low. I shall open to-day the Dickens straw hat, now having a great run in Boston. je25-d1w

A STARTLING TRUTH! Thousands die annually from neglected coughs and colds, which soon ripen into consumption, or other equally fatal diseases of the lungs; when by the timely use of a single bottle of DR. WISTAR'S BALSAM OF WILD CHERRY their lives could have been preserved to a green old age. je21eod1w

THE EIGHTH WONDER!—To the seven wonders of the world an eighth has been added. It is a fluid without bad smell, sediment, or color, that changes the grayest hair to its youthful shade, in from five to ten applications. This prodigy of the age is *Phalon's Vitalia, or Salvation for the Hair.* Sold by all druggists and fancy goods dealers. je27-eod1w

GLITTERING TEETH.—Not only does SOZODONT impart the WHITENESS of the purest porcelain to the teeth, but its POLISH, too. They glisten after being brushed with it, like the inner surface of an ocean shell, and the effect of this peerless dentrifice is to render the enamel as hard and indestructible as adamant.

Save and mend the pieces, use "SPALDING'S GLUE." je27-eod1w

Now, oft we hear the ladies say,
No more our husban is bead their way,
To take their meals from day to day
At saloons and restaurators,
And, oh, the blessedness to know
They never more will hungry go
Since in our house we've learned to throw
Gold Medal Saleratus.

It is true that in the manufacture of Gold Medal Saleratus a degree of perfection has been attained surpassing every other manufacture of saleratus or soda. je27d&w

SPECIAL BARGAINS at Fitzgerald & Co.'s this week. 150 doz Ladies' White Cotton Hose, *full regular* and *full fashioned*, for 33 per dozen or 31 cents per pair; 200 dozen Williston Spool Cotton, soft finish, full 200 yards, for 33 cents per dozen or 3 cents per spool; A1 Patent Black Silk finish Velvet, splendid quality, for $1.40 per yard; Ladies' choice White Tucked Skirts for 70 a 85 cents and $1 00; Misses and Children's White Cotton and Lisle Gloves, in fine variety. Our 10 cent Fans acknowledged the best out.

LATEST NEWS

BY TELEGRAPH TO THE

PORTLAND DAILY PRESS.

XLIst CONGRESS---Second Session.

SENATE.

WASHINGTON, June 25.—Mr. Howard from the select committee on the petition of Messrs. Davis and Hatch in connection with the Dominican treaty submitted a written report with the testimony taken in the case, recommending indefinite postponement of the subject.

Mr. Schurz said he would during the day present the views of the minority of the committee consisting of Messrs. Ferry, Vickers and himself. He subsequently introduced a bill entitled "a joint resolution relative to the complaints of Davis and Hatch against the Dominican republic," which was laid over and ordered to be printed.

The resolutions reported from the Committee on Foreign Relations on Cuba were then taken up on the motion of Mr. Sumner, and Mr. Casserly continued his remarks. At 1 15 the subject went over and the House naturalization bill was taken up.

Mr. Drake, in referring to the alleged enormous frauds at the elections in New York predicted a general civil war as a certain result of the success of the candidate for Presidency elected by that vote.

Mr. Saulsbury said that every election since the passage of the 15th amendment had gone adversely to the Republicans and now they are afraid to depend upon 7000 ignorant colored voters they had manufactured and that the party wanted to exclude hundreds of thousands of naturalized voters so as to carry further elections.

Mr. Vickers followed in opposition to the bill which he characterized as outrageous and unprincipled.

After further remarks by Messrs. Vickers and Bayard against the bill at five and a half o'clock an understanding was effected that the bill should be postponed till Saturday next upon condition of being then finally disposed of and the Senate then adjourned.

HOUSE.

The Senate bill changing the boundaries of land districts was passed.

Mr. Dawes, of Massachusetts, appealed to the House to take up the sundry civil expense appropriation bill, as the chairman of the Senate Finance Committee informed him that unless the bill was sent to the Senate by Monday an extension of the session would be necessary.

The House proceeded to the consideration of reports from the Committee on Commerce.

Mr. Dixon, of Rhode Island, reported back the Senate bill to reorganize the marine hospital service and to provide for the relief of sick and disabled seamen. Amendments were agreed to and the bill passed.

Mr. Bingham of Ohio, presented a reportin the case of assault on Congressman Porter by Patrick Woods, at Richmond. The report orders Woods to be punished by imprisonment in the District of Columbia Jail for three months, and directs the Speaker to issue a warrant to the Sergeant-at-Arms directing the execution of the order.

The Senate bill to incorporte the national Bolivian Navigation Company was opposed by Messrs. Wood and Potter of New York, as proposing to nationalize a foreign company and establish a dangerous precedent in chartering private corporations.

Mr. Dixon of Rhode Island, said that the bill was a practical move to resuscitate American commerce without seeking subsidies, drawbacks or any thing but the right to transact business.

Mr. Logan of Illinois, moved an amendment, reserving to Congress the right to amend at any time. Agreed to.

Mr. Garfield of Ohio, moved an amendment requiring the principal office of the company to be in New York. Agreed to. The bill then passed.

The report of the Committee of Conference on the bankrupt act was submitted and adopted.

The report was ordered to be printed, together with the views of the minority.

The House then went into Committee of the Whole on the sundry civil appropriation bill and refused to strike out the appropriation of $94,087 for the completion of the main central building of the Columbia Institute for the deaf and dumb. It added $4000 for the completion of the Custom House at Wiscasset, Me., and added to the appropriation for the New York and Boston post-offices and a provision authorizing the Secretary of the Treasury to contract for the buildings in advance of the appropriation of the money sufficient to complete the same in accordance with the provisions of the deficiency appropriation bill.

Mr. Wells of Missouri moved to strike out the appropriation of $250,000 for the Boston Custom House. This motion brought up again the subject of the New York and Boston post-offices with the usual onslaught on the architect the motion was rejected.

On motion of Mr. Dawes, $2500 appropriation for three permanent lights on the Providence river, R. I., about Sabin's Point. The committee rose and the Senate amendment to the bill to revise, consolidate and amend the patent and copyright laws was non-concurred in and a Committee of Conference ordered.

The death this morning of David Heaton, a member from North Carolina, was announced, and the customary eulogies and the adoption of resolutions, including for a committee of five to accompany the remains to the national cemetery at Newbern, N. C.; after which the House adjourned.

Domestic News.

NEW YORK.

TOWN NEARLY DESTOYED BY FIRE.

ROCHESTER, June 25.—The greater part of the village of Clifton Springs was destroyed by fire this afternoon.

CITY AND VICINITY.

NEW YORK, June 26.—To-day eight cases of sunstroke; one fatal.

Thomas Sheridan was arrested for stabbing Mitchell, on 37th street this morning.

The immigrants last week numbered 7450; a marked decrease as compared with the first two weeks of the month or corresponding week of last year. The falling off is due to the landing at Portland Boston of several steamers, whence the immigrants were forwarded by rail to this port.

Delia Dickinson yesterday recovered $3000 from the 7th Avenue Railroad Company for injuries received on their cars.

The highest temperature yesterday was 90°.

A commission is now sitting at Kingston, N. Y., to inquire into the alleged lunacy of Geo. Von Breck, who left a wife and family in Germany, married again in the United States and got his second marriage legalized by the Legislature in 1844. When his first wife arrived in this country last spring he abandoned his second wife, who died of a broken heart, and a suit is now brought by her children to secure and have Von Breck's extensive property on the ground of his insanity. Von Breck was formerly Mayor of Saulsbury, Germany, and a prominent officer of the State militia and Paymaster of the Delaware & Hudson Canal Company.

GREAT HAUL OF STOLEN GOODS.

ALBANY, June 25.—The detectives found yesterday secreted in four houses in West Albany large quantities of shoes, boots, rubber goods, dry goods, hats, caps, furs, boxes, plug tobacco, and ladies' writing desks, stolen from the freight trains on the New York Central road. Switch-man Stephen Manahan made a full confession, implicating brakemen on the freight trains.

INQUEST.

POUGHKEEPSIE, June 26.—The inquest in the case of the Nulton disaster is in progress. The officers of the Nupha testify positively they did all they could to avoid collision and rescue the victims. They state that Capt. Carroll was in a small boat for half an hour looking for the persons who were drowned.

WASHINGTON.

THE HATCH-SAN DOMINGO AFFAIR.

NEW YORK, June 26.—A Washington special says that Mr. Nye, from the select committee to investigate the charges preferred by Messrs. Davis and Hatch against General Babcock, made a report to the Senate this morning. The committee state that while Gen. Babcock has been guilty of some indiscretion, there is nothing in the evidence to show that he was in any way guilty of any attempt to keep Hatch in prison. A minority report, which was signed by Messrs. Ferry, Schurz and Vickers, censures the conduct of Gen. Babcock and charges that he connived with certain parties in San Domingo to keep Hatch in jail for some purpose best known to themselves. They recommend that the $50,000 damages set forth in the petition of Mr. Hatch against the Dominion government be collected by the United States.

INTERNAL REVENUE RECEIPTS.

The internal revenue receipts to-day were $811,659, and the total for the fiscal year $180,574,999.

THE CURRENCY QUESTION.

The Conference Committee on the currency bill were in session to-day but arrived at no conclusion. It is probable that additional facilities will be given to the banks South and West to the extent of seventy millions by abolishing forty-five millions of their present certificates and transferring twenty-five millions from eastern banks. There will be no actual expansion of the currency, only so far as may result from the authorization of gold banks.

POSTAGE TO THE NORTHWEST.

WASHINGTON, June 26.—Letter postage to Vancouver's Island and British Columbia will be reduced July 1st to six cents per half ounce or ten cents if not prepaid. Printed matter pays the regular domestic rates to the frontier.

MISSOURI.

THE HOMESTEAD AND GRADUATION LAWS.

ST. LOUIS, June 25.—A number of United States land officers from various districts in the State are now in consultation in this city regarding the recent construction of the homestead and graduation law by the General Land Office at Washington, by which it is ordained that all parties making entries under the graduation law since the 3d of March, 1867, shall be ousted unless they make proof of settlement and cultivation, or pay the difference in price within sixty days of the date of the notice. There are one million acres of land in this State which have been entered at 12 1-2 cents per acre, and parties making such entries have failed to comply with the law, and it is the intention of the government to throw all the lands so forfeited by non-compliance with the law into the market, as much of it is claimed by non-residents, to the serious hindrance of the settlement and development of the State.

INDIANA.

YOUNG MEN'S CHRISTIAN ASSOCIATIONS.

INDIANAPOLIS, June 25.—The Young Men's Christian Association Convention to-day selected the second Sunday of November as a day of prayer throughout the world for these associations. It authorized the executive committee to employ a travelling agent in the South to continue as a missionary among the Germans, and adopted a resolution urging renewed efforts for the better observance of the Sabbath.

The Convention to-day selected Washington as the place for the next convention, and elected J. N. Harris of Hartford, Conn., a delegate among others to the General Conference of the Young Men's Christian Association at Amsterdam on the 25th of August next. The meeting to-morrow evening will close the convention.

MASSACHUSETTS.

GEN. SHERMAN IN BOSTON.

BOSTON, June 25.—Gen. Sherman visited the Shoe and Leather Exchange to-day and was made an honorary member. He was received with hearty cheers and expressed thanks in a brief speech.

A temperance organization was formed at a meeting in Music Hall to-day, the special object of which is to enroll Sabbath School children throughout New England in the cold water ranks. Governor Claflin presided. Mr. Gough delivered an address.

The thermometer at 2 p. m. was 94° in the shade.

SUDDEN CHANGE OF WEATHER.

SPRINGFIELD, June 26.—An extrordinary change in the weather has taken place here in the last 30 hours; thermometer at two o'clock yesterday recorded 103; to-night it has fallen to 67°.

ILLINOIS.

RETURN OF GEN. SHERMAN.

CHICAGO, June 25.—Gen. Sherman returned to his headquarters last night from a tour through the Indian country. During his trip he has traveled over 5000 miles. The most distant point he visited was Fort Benton. During the entire journey he was not molested by the Indians, but while passing through the country possessed by the more hostile tribes he had an escort of cavalry.

PROTEST AGAINST REDUCED DUTIES.

CHICAGO, June 26.—Forty of the leading wholesale grocers of this city have sent a petition to Congress to make no change in duties on tea, coffee, sugar, spices, &c., during the present year

PENNSYLVANIA.

DISASTROUS FIRE.

READING, June 26.—The extensive car shops of the Reading R. R. in this city, the finest in the country, were burned this morning. Loss, $115,000; insured for $25,000. Hundred thousand feet of finished lumber, four passenger cars, eighteen wooden coal cars, half a dozen freight cars, &c., were destroyed. Three hundred workmen lost all their tools.

TENNESSEE.

THE CROP PROSPECTS.

MEMPHIS, June 25.—Encouraging accounts are given of the cotton and corn crops in Arkansas. In this section the crops are suffering from excessive rains, rendering cultivation impossible.

MAINE.

THE WEATHER.

BANGOR, June 26.—The thermometer yesterday reached 103 in the shade.

FOREIGN.

Great Britain.

THE RECENT RIOTS.

LONDON, June 25.—Everything is quiet at Cork. Thirty people were seriously injured in the recent riots there.

THREATENED STRIKE.

The carpet weavers of England threaten to strike for higher wages.

CANADIAN EMIGRANTS.

There was an interesting scene at the wharf here on the occasion of the departure of the last Canadian emigrants for the season. The emigrants numbered 1200 and sailed in the ships Gangs and Tirol.

THE EDUCATION BILL.

LONDON, June 26.—A large deputation of workingmen yesterday waited on Mr. Forster, who explained to them and defended the education bill now before Parliament.

OPENING OF TABLE BAY DOCKS.

The Table Bay, Cape of Good Hope, new docks have been completed and are open for shipping.

THE IRISH RIOTS.

CORK, June 26.—The disturbances here continue, although the troops and police occupy the streets in force. The rioters offer no resistance to the troops, but annoy the police. When driven from the streets they occupy the houses, and from thence hurl tiles and stones at the policemen. One of the latter to-day was knocked from his horse and badly injured. A shoemaker's shop was attacked yesterday by a large mob, but was successfully defended by the troops. Large numbers of the rioters have been arrested. The authorities are acting with moderation. They have forbidden processions within the city limits, but have given permission for the holding of public meetings in the Park.

France.

THE TRIAL OF SENATOR D'ESTANG.

PARIS, June 25.—The Chinese Embassy has arrived here.

A complaint has been addressed to the Emperor, signed by prominent persons, against Ollivier's abuse of power in rejecting without examination the request that Senator Charles d'Estang, Secretary of the Senate, be tried before the High Court at Blois.

THE OUTLAWED PRINCES.

It is expected that a report on the petition of the outlawed princes will be presented to the Chambers on July 24. The journals to-day confirm the reports before published that the Government refuses permission to the princes to return at present.

HEALTH OF THE EMPEROR.

The Emperor has had another attack of rheumatism, brought on by a sudden change in the weather.

PARIS, June 26.—The Emperor has been advised by his physician to go to Contrexville for three months and take mineral baths there.

Germany.

PUNISHMENT FOR ASSAULT.

LEIPSIC, June 26.—Alvah Lake, of Memphis, Tenn., has been sentenced to four years imprisonment for an aggravated assault on the American Consul here.

Spain.

ABDICATION OF QUEEN ISABELLA.

PARIS, June 26.—Queen Isabella yesterday signed her abdication in favor of her son, the Prince of Asturias. Marshal Bazine and other dignitaries were not present, but had previously witnessed the will of the Queen, made before abdication, that it might have the weight and validity of the act of a sovereign.

ABOLITION OF SLAVERY.

The Spanish Cortes, before its final adjournment, passed a bill for the gradual emancipation of slaves in the colonies, differing from Senor Moret's original project in the following respects:—All slaves over 60 instead of 65 years of age are immediately liberated. The guardianship held by their former masters over slaves born since 1868 cease on proof of abuse or castigation on the part of the master or upon the marriage of the slave. Children under 14 are to go with their mothers. Married couples shall not be separated, and punishment by lash absolutely prohibited. Provision will be made by supplementary legislation to meet such cases as may neither be covered by this bill nor left at the discretion of Government.

South America.

DEFEAT OF INSURGENTS IN ENTRE RIOS.

PARIS, June 26.—The insurgent forces under Gen. Lopez Jordan in the Argentine province of Entre Rios were lately defeated by the regular troops.

Cuba.

CHOLERA AT HAVANA.

HAVANA, June 25.—The cases of cholera and deaths are growing less and there are no fears of an epidemic at present.

MORE SPANISH VOLUNTEERS.

HAVANA, June 26.—Captain Gen. DeRodas telegraphs that he has captured the second cargo landed by the Upton, and that it is more valuable than the first. Montaigue's column had killed twelve of the Sanguoli band, including an American colonel. The insurgent Ortega and his family were on the road to surrender when they were captured. Two other men in attempting to surrender were caught and hanged and their family outraged. Parties are forming who resist conscription and refuse aid to the revolutionists.

Mexico.

PROGRESS OF THE REVOLUTION.

SAN FRANCISCO, June 25.—Advices from Mexico state that the Rio Grande revolutionists number 2000. Samiverto, Prefect of the district of Tuxtepie, had been assassinated by the citizens.

Pierre Carme, the billiardist, has arrived in Mexico.

The *El Questo* newspaper says that the celebrated Catholic Society of the Holy Alliance will exert an important influence in the next Presidential election.

Juarez has been accused of smuggling. No heed is paid to his demand for an investigation.

The United States steamer Mohican has been sent in pursuit of the steamer Forward, which left Guayamas on the 29th ult. with the rebel Col. Vascanzio's expedition on board.

CAPTURE OF GUAYAMAS BY REVOLUTIONISTS.

The city of Guayamas was surprised May 28th by an armed force under Col. Vascanzio, in the interest of Placido Vega. The troops landed from the steamer Forward, formerly an English gunboat, and entered the city without opposition. The Collector of Customs and other officers were seized, possession of the Custom House taken and notices given to the citizens to pay outstanding duties, estimated at $700,000 which were collected. They carried away two vessels and 5000 muskets which they had seized in the city. The U. S. Consul protested against the seizure of the arms. Forty

Poetry.

Through the Wheat.

Once, when my heart and I were young,
We wandered, restless, by sea and strand,
And lingered a little space among
The grassy valley of Switzerland;

Where watchful summits forever frown,
Through blue air slanting, clear and keen,
Wearing proudly their icy crown,
While happy hamlets smile between;

Where rapid torrents rejoicing run,
Leaping the cliffs in strength and pride,
Like snow-white ribbons, in wind and sun,
Fluttering down the mountain-side;

Where smoke-like cloudings of tender blue
Dapple the slopes in sunny spots,
And sweetly change on a nearer view,
To drifts of the fairest forget-me-nots.

Often at eve, when the sun was low,
And the mountain shadows grew dark and vast,
I watched the cottagers, wending slow
Home to rest when their toil was past.

Two walked lovingly side by side,
Speaking so tly, as lovers speak—
He with an air of manly pride,
She with a blush on her sun-browned cheek.

Hand in hand, through the evening red
They went—through the shadows damp and sweet—
Choosing a narrow path that led
On and on through the growing wheat.

Sunset touched him with rosy light,
Sunset brightened her loosened hair—
Poor and plain, they were fair to sight,
For youth and love are forever fair.

And often as sunset charms the air—
For the time and scene are vanished now—
I think of that simple, loving pair,
And wonder whether they kept their vow—

Whether under some mossy roof,
Their wedded spirits serenely blent,
They weave the even warp and woof
Of their quiet lives in calm content;

Or whether they parted in scorn and wrath,
As myriad lovers have done before,
And choosing each a separate path,
Were thence divided for evermore;

Or whether still, as across the land
The dewy shadows grow damp and sweet,
Perennial lovers, with hand in hand,
They walk, knee-deep, in the growing wheat.

State of New York,
INSURANCE DEPARTMENT,
ALBANY, June 10, 1870.

To the Directors of the Home Insurance Company, of New Haven:

Having recently made an examination of the books and assets of the Home Insurance Company, of New Haven, Conn., I have found that the statement of said company, made to this department, January 1st, 1870, contained a correct list of the real estate and securities of said company at that time, as shown by the books of the company and the certificates of the different State Officers where portions of such securities were deposited.

The Capital of the Company, as shown by said statement, was impaired. My examination has satisfied me that heavy losses and other circumstances have caused a still further impairment of the capital of the company since January 1st, 1870, and that inasmuch as said impairment exceeds 25 per cent., it is indispensable that said company reduce its capital, or that a call be made upon the stockholders to make it good. As the capital was so large, being $1,000,000, and as measures have been taken to secure a reduction to $500,000, I shall delay making such call in hopes that such reduction may be effected, and the company be enabled to continue its business more successfully hereafter.

The President, Mr. Satterlee, has been very frank in his exposition of the affairs of the Company, and I believe that the reduction of the stock named will leave an unimpaired Capital of $500,000.

GEO. W. MILLER, Superintendent.

Notice to Owners of Maine Central R. R Bonds.

THE holders of the Bonds of the Penobscot and Kennebec Railroad, due in August next, can now exchange their securities and receive a bond of the Maine Central R. R., having 28 years to run, *be ring interest at seven per cent. and free from any excise tax.*

It will be perceived that by this arrangement the holder of the bond gets over one per cent. interest more than he has received on the old bond; while the security of the new, is also more than upon the former loan

It is also proposed to exchange these new seven per cents for the Maine Central Bonds due from December 1, 1870 to May 1, 1871, and parties will readily perceive that by thus exchanging they will *at once put their investment into a clean seven per cent. loan, upon undoubted security and free from excise tax.*

Holders will please communicate with the *First National Bank of Portland*, either in person or by mail.

MEDICAL.

WOMAN.

Females, owing to the peculiar and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings. Freedom from these contribute in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

HELMBOLD'S EXTRACT OF BUCHU.—Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome diet and food, profuse menstruation, the use of tea and coffee, and frequent child-birth, it is far oftener caused by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which consequently, affect more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development, to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half clothed, and the mind unduly excited by pleasure, perverting in midnight revel the hours designed by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. When one excitement is over, another in prospective keeps the mind unduly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indespensible to the attainment and retention of organic health and strength; the exposure to night air; the sudden change of temperature; the complete prostration produced by excessive dancing, must, of necessity, produce their legitimate effect. At last an early marriage caps the climax of misery, and the unfortunate one, hitherto so utterly regardless of the plain dictates and remonstrances of her delicate nature, becomes an unwilling subject of medical treatment. This is but a truthful picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is in common with the female breast and lips, evidently under the control of mental emotions and associations at an early period of life; and as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development.

For Female Weakness and Debility, Whites or Leucorrhœa, Too Profuse Menstruation, Exhaustion, Too Long Continued Periods, for Prolapsus and Bearing Down, Prolapsus Uteri, we offer the most perfect specific known: HELMBOLD'S COMPOUND EXTRACT OF BUCHU. Directions for use, diet, and advice accompany.

Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature in the discharge of its functions. Strength is the glory of manhood and womanhood. HELMBOLD'S EXTRACT BUCHU is more strengthening than any of the preparations of Bark or Iron, infinitely safer and more pleasant. HELMBOLD'S EXTRACT BUCHU, having received the indorsement of the most prominent Physicians in the United States, is now offered to afflicted humanity as a certain cure for the following diseases and symptoms, from whatever cause originating: General Debility, Mental and Physical Depression, Imbecility, Determination of Blood to the Head, Confused Ideas, Hysteria, General Irritability, Restlessness and Sleeplessness at night, Absence of Muscular Energy, Loss of Appetite, Dyspepsia, Emaciation, Low Spirits, Disorganization or Paralysis of the Organs of Generation, Palpitation of the Heart, and, in fact, all the concomitants of a Nervous and Debilitated state of the system. To insure the genuine cut this out. Ask for HELMBOLD'S. Take no other. Sold by Druggists and Dealers everywhere. Price, $1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications. Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y.

☞ None are Genuine unless done on steel-engraved wrapper, with fac-simile of my Chemical Warehouse, and signed HT. HELMBOLD.

REAL ESTATE.

Desirable Country Seat for Sale.

THE estate of the late Dr. John Milliken, situated in Scarborough, Maine, 7 miles from Portland, and five from Saco, one and one half miles from Old Orchard Beach, and one-half mile from the West Scarborough Station on the P. S. & P. Railroad.

It contains about one hundred acres of land, cuts thirty tons of hay and is well stocked with choice fruit trees. The buildings consist of a large thoroughly built two story brick house, a good barn, wood and carriage house, all in good repair. A fine stream of water flows through the farm, with a fall of more than forty feet, affording a good mill privilege, and the best of facilities for the breeding of fish On account of its proximity to good markets, and also to one of the finest beaches in New England, it offers a rare opportunity to any one wishing to purchase a pleasant country home. Price $6000, which is much less than the cost of the buildings. Apply to the subscriber at 292 Commercial street, Portland, or No. 1 Spring's Island, Saco, Me

MEDICAL.

The Eye, Ear, Catarrh THROAT.

Mrs. Manchester,
THE INDEPENDENT
CLAIRVOYANT
AND
Eclectic Physician!

Formerly from New York, by request has returned to Portland, and can be found at the United States Hotel, for ten days only, where she will treat for all diseases that flesh is heir to.

Price for Examination, One Dollar.

Certificates of Cures.

This is to certify that I have been sick for 7 years with what the physicians, to the number of 8 or 10, called Dropsy of the Heart and Enlargement of the Liver. I called on Mrs. Manchester, the clairvoyant physician, on the 18th of June, at the Merrimac House. She made an examination of my case and immediately told me I had a tape worm. She prescribed medicine for me, and in 36 hours I had one hundred and eighty feet of the tape worm pass off, and she has a portion of it that any one may see at her rooms. This is a true statement of the case, and I recommend all to go and see her and try her skill.
GEORGE H. RICHARDSON,
MARYANN RICHARDSON.
Newburyport, Mass., June 12, 1869.

NEW GLOUCESTER, April 22, 1870.
This is to certify that I called on Mrs. Manchester, the celebrated Physician, last August, to be treated for a *Rose Cancer* on the breast. Five different Physicians said I must have it taken off with a knife. I did not feel willing to submit to that treatment; consequently they told me they could do nothing for me. Hearing of Mrs. Manchester's wonderful cures, I thought as a last resort I would consult her. I did so the 24th August, and at this time my breast is well and no appearance of cancer. I must truly say that I think her a great Physician. I advise every one to go and see her and give her a trial.
MRS. N. H. PERRY
HENRY PERRY.

FAIRHAVEN, Dec. 1, 1869.
I wish to let the public know that I called on Mrs. Manchester eight months ago, to be treated for deafness and Catarrh. I have been deaf for eleven years—totally deaf with one ear, and partially so with the other. I had consulted a number of physicians all to no purpose. I used Mrs. Manchester's remedies six months, and can truly say I have been a happy man since I got my hearing. I am, by the blessing of God and her skill, fully restored to my hearing. I advise all to go and consult her; she will tell you honestly what she can do.
JOHN L. FISHER.

This is to certify that Mrs Manchester has doctored in my family for six years, with marked success. She has cured my wife of dropsy in its worst form; my daughter of spinal disease of five years standing; a sister of deafness and catarrh; my father of blindness. And I would recommend her to the public as a skilful physician, and every way worthy of patronage.
JOHN DWSTDI
Portland, Maine, June 29th 1869. d&wtf

DR. J. B. HUGHES,
CAN BE FOUND AT HIS
PRIVATE MEDICAL ROOMS
No. 14 Preble Street,
Next the Preble House,

WHERE he can be consulted privately, and with the utmost confidence by the afflicted, at hourdaily, and from 9 A. M. to 9 P. M.

Dr. H. addresses those who are suffering under the afflictions of private diseases, whether arising from Impure connection or the terrible vice of self-abuse. Devoting his entire time to that particular branch of the medical profession, he feels warranted in GUARANTEEING A CURE IN ALL CASES, whether of long standing or recently contracted, entirely removing the dregs of disease from the system, and making a perfect and PERMANENT CURE.

He would call the attention of the afflicted to the fact of his long-standing and well-earned reputation furnishing sufficient assurance of his skill and success.

Caution to the Public.

Every intelligent and thinking person must know that remedies handed out for general use should have their efficacy established by well tested experience in the hands of a regularly educated physician, whose preparatory studies fit him for all the duties he must fulfil; yet the country is flooded with poor nostrums and cure-alls, purport ing to be the best in the world, which are not only useless, but always injurious. The unfortunate victim of PARTICULAR is selecting his physician, as it is a lamentable yet incontrovertible fact, that many syphilitic patients are made miserable with ruined constitutions by maltreatment from inexperienced physicians in general practice; for it is a point generally conceded by the best syphilographers, that the study and management of these complaints should engross the whole time of those who would be successful in their treatment and cure. The inexperienced general practitioner, having neither opportunity nor time to make himself acquainted with their pathology, commonly pursues one system of treatment. In most cases making an indiscriminate use of that antiquated and dangerous weapon, the Mercury.

Have Confidence.

All who have committed an excess of any kind whether it be the solitary vice of youth, or the timely rebuke of misplaced confidence in maturer years, are invited to call at once, FOR AN ANTIDOTE IS AT HAND.

Pains and Aches, and Lassitude and Nervous Prostration that may follow Impure Coition, are the Barometer to the whole system. Do not wait for the consummation that is sure to follow; do not wait for Unsightly Ulcers, for Disabled Limbs, for Loss of Beauty and Complexion.

How Many Thousands Can Testify to This by Unhappy Experience!

Young men troubled with emissions in sleep,—a complaint generally the result of a bad habit in youth,—treated scientifically and a perfect cure warranted or no charge made.

Hardly a day passes but we are consulted by one or more young men with the above disease, some of whom are so weak and emaciated as though they had the consumption, and by their friends are supposed to have it. All such cases yield to the proper and only correct course of treatment, and in a short time are made to rejoice in perfect health.

Middle-Aged Men.

There are many men at the age of thirty who are troubled with too frequent evacuations from the bladder, often accompanied by a slight smarting or burning sensation, and weakening the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of semen or albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the

SECOND STAGE OF SEXUAL WEAKNESS.

I can warrant a perfect cure in such cases, and a full and healthy restoration of the urinary organs.

Persons who cannot personally consult the Dr., can do so by writing, in a plain manner, a description of their disease, and the appropriate remedies will be forwarded immediately.

All correspondence strictly confidential and will be returned, if desired.

Address: DR. J. B. HUGHES,
No. 14 Preble Street,
Next door to the Preble House, Portland, Me.

VEGETINE.
Purely Vegetable.
Natures Remedy.

A valuable Indian Compound for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as

Scrofula, Scrofulous Humor, Cancer, Cancerous Humor, Erysipelas, Canker, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs and Colds, Bronchitis, Neuralgia, Rheumatism, Pains in the Side, Dyspepsia, Constipation, Costiveness, Piles, Headache, Dizziness, Nervousness, Faintness at the Stomach, Pains in the Back, Kidney Complaints, Female Weakness, and General Debility.

The preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs, and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating all impurities of the blood from the system, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

Its wonderful effect upon these complaints is surprising to all. Many have been cured by the VEGETINE who have tried many other remedies. It can well be called

THE GREAT
BLOOD PURIFIER.
PREPARED BY
H. R. STEVENS,
Boston, Mass.

PRICE $1.25. Sold by all Druggists.
Entered according to Act of Congress, in the year 1870, by H. R. STEVENS, in the Clerk's Office of the District Court of the District of Massachusetts.

Mild, Certain, Safe, Efficient. It is far the best Cathartic remedy yet discovered, and at once relieves and invigorates all the vital functions, without causing injury to any of them. The most complete success has long attended its use in many localities; and it is now offered to the general public with the conviction that it can never fail to accomplish all that is claimed for it. It produces little or no pain; leaves the organs free from irritation, and never over-taxes or excites the nervous system. In all diseases of the skin, blood, stomach, bowels, liver, kidneys,—of children, and in many difficulties, peculiar to women, it brings prompt relief and certain cure. The best physicians recommend and prescribe it, and no person who once uses this, will voluntarily return to the use of any other cathartic.
